

BIOMIMICRY GLOBAL DESIGN CHALLENGE

Want to create a team for this year's Biomimicry Global Design Challenge?

ASU's Biomimicry Center is hosting an info session **February 26th** for interested students and faculty from Design, Engineering, Sustainability, Life Sciences, Business, and more. This year's challenge is focused on creating nature-inspired solutions that address Climate Change.

Ten teams will join the Biomimicry Launchpad and compete for the **\$100,000 Ray of Hope Prize®**. The Biomimicry Launchpad is a 12-month program that assists teams in developing their design concepts and market strategy utilizing business training, mentorship, and legal support provided by the Biomimicry Institute and its partners. Student teams are also eligible for **awards from \$750-3000**.

Details:

Where? The Biomimicry Center, College of Design South, CDS 126

When? Tuesday, February 26th, 12-1pm

Who? All interested ASU students and faculty

To RSVP, email Dr. Clint Penick, Biomimicry Center Research Specialist at capenick@asu.edu
